01. Company Overview

From a family business household, we have developed and inaugurated our second agricultural products factory, aiming to become the leading flagship in Vietnam's agricultural industry. We are committed to providing superior quality products and sustainable development.

Vu Cong is committed to promoting Vietnam's agricultural market with high quality and health-safe products, meeting stringent standards both domestically and internationally. Through sustainable production practices and advanced technology application, we build strong cooperative relationships, contributing to elevating the value of Vietnamese agricultural products in the global market

Vietnam Village Craft E-Magazine

“Vu Cong agricultural products are processed on a modern production line, ensuring both quality and increasing product value and competitiveness in the international market. This model also contributes to promoting the development of the province's agricultural processing industry in the direction of producing and processing high-quality goods, meeting the needs of the domestic market and promoting exports of key agricultural products with many strengths of Hai Duong province.”

Vietnam National Television

"Having been present in the market for many years, Vu Cong agricultural products have always affirmed their commitment to international standard product quality and services thanks to factories invested in completely new technology, including a production line system using modern technology for very high capacity"

06. Partners
